

Delta Antenna

The Delta Antenna is a high performance, omni-directional, broadband antenna that is suited to base-to-base or base-to-mobile communication over short to medium distances.

KEY FEATURES

Performance

The Delta Antenna offers high performance over short to medium distances, and exhibits essentially an omni-directional pattern.

The Delta has been designed to provide continuous coverage throughout its entire frequency range (3–30 MHz) making it an ideal choice for a base station antenna.

Easy to install

The Delta Antenna can be supplied with or without a support mast and comes complete ready to install on site. It requires a relatively large cleared area for installation at either ground level or on a flat roof of a building; a ground plane is *not* required. The coaxial cable may be purchased separately.

Delta Antenna

RADIATION PATTERNS

SPECIFICATIONS

Frequency	3–30 MHz
Impedance	50 Ω (nominal)
VSWR	Less than 2:1
Power rating	200 W PEP (100 W Avg)
Radiator elements	Marine grade stainless steel
Packed weight	
Antenna <i>only</i>	30 kg
Antenna including mast	222 kg
Carton dimensions	
Antenna <i>only</i> (1 carton)	910 x 285 x 205 mm
Antenna including mast (3 cartons)	960 x 630 x 270 mm
	1110 x 1110 x 390 mm
	4500 x 1570 x 140 mm
Mast height	15 m
Antenna width	46 m
Guy radius	10 m
Overall height	16 m (includes gibbet)
Footprint	50 x 18 m
Wind rating	Up to 180 kph (112 mph) in clear air, subject to mast, footing and anchoring
